BESCHREIBUNG

The dispenser D-PT is a pressure-time-controlled dispenser that dispenses various materials with an additional EFD valve.

The material is dispensed quickly and precisely thanks to the integrated valve. The cartridge, which is attached to the valve, is permanently pressurized with a defined pressure. By opening the valve for a defined time and with the defined pressure, a corresponding amount of material is dispensed.

An observation camera which is installed on the dispensing head, thereby ensuring the constant control of the process.
