

## CAMERA 2D

SKU: S2-0039

22.500,00 € excl. VAT

---

Categories: [Inspection systems](#), [Modules](#)

## BESCHREIBUNG

The Camera 2D is an inspection head for the optical detection of structures on component and substrate surfaces. The recorded image data is processed in the system control software. Error compensation algorithms ensure that deviations from nominal positions are corrected by reorienting the processing heads. The Z-axis stroke of 150 mm also enables the detection of positions at very different heights.

## MORE INFORMATIONS

Dimensions in mm (W x D x H)	49 x 261 x 402
Weight in kg	4.8
Movement range in Z in mm	150
Type of lens	Telecentric objective
Field of view in mm (W x H)	0.74 x 0.5
Resolution camera in $\mu\text{m}$	1.9
Voltage in V	48
Max. current in A	3.2
Communication interface	Ethernet
