

PLACER

SKU: S2-0027

23.400,00 € excl. VAT

Categories: [Assembly systems](#), [Modules](#), [smart modules](#)

BESCHREIBUNG

The Placer is a placement head designed for accurate alignment as well as placement of components. The head can be equipped with both standard and process-specific tools. The spectrum ranges from vacuum-based tools for component placement to punches for pin transfer processes. In addition, a Z-axis stroke of 150 mm guarantees exceptional reach. This means that even positions in deep cavities can be reached without any problems.

MORE INFORMATION

Dimensions in mm (W x D x H)	49 x 261 x 341
Weight in kg	4.8
Movement range in Z in mm	150
Accuracy z-axis in mm	± 0.001
Force measuring range in N	10 ... 50
Movement range rotation axis in degree	0 ... 360
Resolution rotation axis in arcsec	± 6 , 24
Voltage in V	48
Max. current in A	3.2

Communication interface

Ethernet
