

### PLACER GS (PG16)

SKU: S2-0037.02

19.100,00 € excl. VAT

---

Categories: [Assembly systems](#), [Modules](#)

## BESCHREIBUNG

The Placer GS is a processing head that aligns and places components based on a mechanical gripper system. It is used when components cannot or must not be picked up using a vacuum tool.

The placer contains a two-jaw gripper. According to the geometry of the customer-specific components, the gripper fingers are developed individually.

## MORE INFORMATIONS

|   |                |
|---|----------------|
| Dimensions in mm (W x D x H)                | 49 x 309 x 514 |
| Weight in kg                                | 5.5            |
| Movement range in Z in mm                   | 150            |
| Accuracy z-axis in mm                       | 0,02           |
| Auflösung Z-Achse in $\mu\text{m}$          | 4              |
| Max. Geschwindigkeit Z-Achse in mm/s        | 1000           |
| Voltage in V                                | 24             |
| Max. current in A                           | 4              |
| Communication interface                     | UNICAN         |
| Operating temperature in $^{\circ}\text{C}$ | 20 ... 35      |
